Subject: Microsoft Settlement

The settlement as worded, is a bad idea. I believe it lacks the teeth to be fully enforced. Even if enforced fully, it doesn't really inhibit Microsoft from continuing their unfair, monopolistic, anti-competitive tactics.

Worse yet, it does not punish Microsoft at all for illegal acts committed in the past.

Repeating -- it doesn't punish an evil doer for wrongs committed (and of which they have been found legally guilty). This simply amazes me.
